

Java Darleen Villano

✉ javavillano.math@gmail.com  javavillano.crd.co

Academic positions

University of Toronto <i>Postdoctoral Fellow</i>	<i>2025-2026</i>
University of Connecticut <i>Graduate Student</i>	<i>2019-2025</i>

Education

University of Connecticut <i>Ph.D. Mathematics</i>	<i>2019-2025</i>
◦ Advisers: Reed Solomon and Damir D. Dzhafarov	
◦ Dissertation Title: Computable Categoricity, and Topology in Reverse Mathematics	
University of California, Berkeley <i>B.A. Mathematics with Logic Minor</i>	<i>2015-2019</i>

Research interests

Computability theory, computable structure theory, reverse mathematics, Weihrauch complexity, and algorithmic randomness.

Publications

Extensions of categoricity relative to a degree	June 2026
Villano, J.D.	
Accepted, <i>Zeitschrift für Mathematische Logik und Grundlagen der Mathematik</i> 	
Computable categoricity relative to a c.e. degree	November 2025
Villano, J.D.	
<i>Notre Dame Journal of Formal Logic</i> 	
Normality, relativization, and randomness	June 2025
Calvert, W., Gruner, E., Mayordomo, E., Turetsky, D., Villano, J.D.	
<i>Theory of Computing Systems</i> 	
The Ginsburg–Sands theorem and computability theory	May 2024
Benham, H., DeLapo, A., Dzhafarov, D., Solomon, R., Villano, J.D.	
<i>Advances in Mathematics</i> 	

Teaching experience

Primary Instructor	<i>Toronto, ON</i>
<i>University of Toronto</i>	<i>2025-2026</i>
◦ Fall 2025, Winter 2026: MAT133Y (Calculus and Linear Algebra for Commerce), 1 section	
Primary Instructor	<i>Storrs, CT</i>
<i>University of Connecticut</i>	<i>2023-2024</i>
◦ Fall 2024: Math 1071Q (Calculus for Business and Economics), 2 sections	
◦ Spring 2024: Math 1071Q (Calculus for Business and Economics), 1 section	
◦ Fall 2023: Math 1071Q (Calculus for Business and Economics), 2 sections	
◦ Spring 2023: Math 1071Q (Calculus for Business and Economics), 2 sections	

Teacher Assistant
University of Connecticut

Storrs, CT
2019-2022, 2025

- **Spring 2025:** Math 2110Q (Multivariable Calculus), 3 sections
- **Fall 2022:** Math 1132Q (Calculus II), 2 sections
- **Spring 2022:** Math 1132Q (Calculus II), 2 sections
- **Fall 2021:** Math 1131Q (Calculus I), 2 sections
- **Spring 2021:** Math 1132Q (Calculus II), 2 sections
- **Fall 2020:** Math 1132Q (Calculus II), 2 sections
- **Spring 2020:** Math 1132Q (Calculus II), 2 sections
- **Fall 2019:** Math 1131Q (Calculus I), 2 sections

Conference invitations

AMS Fall Central Sectional Meeting
St. Louis University

St. Louis, MO
Fall 2025

Presentation title: Categorical behavior in the Turing degrees

Workshop “Reverse Mathematics: New Paradigms”

Vienna, Austria
Summer 2025

Erwin Schrödinger International Institute for Mathematics and Physics

Presentation title: Relativized computable categoricity

Summer School “Reverse Mathematics: New Paradigms”

Vienna, Austria
Summer 2025

Erwin Schrödinger International Institute for Mathematics and Physics

Logicón 2025

México City, México
Spring 2025

Facultad de Ciencias UNAM

Presentation title: Computable categoricity relative to a degree (online talk)

ASL North American Annual Meeting

Las Cruces, NM
Spring 2025

New Mexico State University

Presentation title: Computable categoricity relative to a generic degree

Dagstuhl Seminar – Weihrauch Complexity: Structuring the Realm of Non-Computability

Wadern, Germany
Spring 2025

Schloss Dagstuhl

South Eastern Logic Symposium

Gainesville, FL
Spring 2025

University of Florida

Presentation title: Computable categoricity relative to a degree

Graduate Research Forum

Storrs, CT
Spring 2025

University of Connecticut

Presentation title: Relativizing computable categoricity

The New England Recursion and Definability Seminar

Hanover, NH
Fall 2024

Dartmouth College

Presentation title: Computable categoricity relative to a c.e. degree

Computable Structure Theory and Interactions

Vienna, Austria
Summer 2024

Technische Universität Wien

Presentation title: Computable categoricity relative to a degree

Joint Mathematics Meeting – AMS Special Session on Computable Mathematics: A Session Dedicated to Martin D. Davis

San Francisco, CA
Spring 2024

Presentation title: Computable categoricity relative to a c.e. degree

A Convergence of Computable Structure Theory, Analysis, and Randomness

Banff, AB
Spring 2023

Banff International Research Station

AMS New England Graduate Student Conference

Providence, RI
Spring 2022

Brown University

Presentation title: Priority arguments

Contributed presentations

ASL North American Annual Meeting <i>Iowa State University</i>	<i>Ames, IA</i> <i>Spring 2024</i>
Presentation title: Computable categoricity relative to a c.e. degree	
AMS New England Graduate Student Conference <i>Brown University</i>	<i>Providence, RI</i> <i>Spring 2024</i>
Presentation titles: Topology in the Reverse Math Zoo; Computable categoricity relative to a c.e. degree	
17th International Conference on Computability, Complexity, and Randomness <i>Nagoya University</i>	<i>Nagoya, Japan</i> <i>Spring 2024</i>
Presentation title: Computable categoricity relative to a c.e. degree	

Conferences and workshops attended

CoCoGEMS @TU Wien <i>Technische Universität Wien</i>	<i>Vienna, Austria</i> <i>Summer 2026</i>
CBMS Conference – Algorithmic Fractal Dimensions <i>Drake University</i>	<i>Des Moines, IA</i> <i>Spring 2024</i>
Computability and Combinatorics Summer School and Conference <i>UConn Hartford</i>	<i>Hartford, CT</i> <i>Spring 2023</i>
ASL Winter Meeting at the Joint Mathematics Meeting	<i>Boston, MA</i> <i>Spring 2023</i>
IMS Graduate Summer School in Logic <i>National University of Singapore</i>	<i>Singapore</i> <i>Summer 2022</i>

Seminar presentations

Logic Seminar <i>George Washington University</i>	<i>Washington, D.C.</i> <i>Spring 2026</i>
Presentation title: Relativizing categoricity and low c.e. sets	
Logic Seminar <i>University of Waterloo</i>	<i>Waterloo, ON</i> <i>Fall 2025</i>
Presentation title: Relativizing computable categoricity	
SIGMA Seminar <i>University of Connecticut</i>	<i>Storrs, CT</i> <i>Spring 2025</i>
Presentation title: The Scott Isomorphism Theorem	
Online Logic Seminar <i>Southern Illinois University</i>	<i>Online</i> <i>Fall 2024</i>
Presentation title: Computable categoricity relative to a degree	
SIGMA Seminar <i>University of Connecticut</i>	<i>Storrs, CT</i> <i>Spring 2024</i>
Presentation title: The Ginsburg–Sands theorem and computability theory	
SIGMA Seminar <i>University of Connecticut</i>	<i>Storrs, CT</i> <i>Spring 2024</i>
Presentation title: Normality and Randomness	
SIGMA Seminar <i>University of Connecticut</i>	<i>Storrs, CT</i> <i>Fall 2023</i>
Presentation title: Randomness and Hausdorff dimension	
Connecticut Logic Seminar	<i>Storrs, CT</i>

University of Connecticut

Fall 2023

Presentation title: Computable categoricity relative to a c.e. degree

SIGMA Seminar

Storrs, CT

University of Connecticut

Fall 2022

Presentation title: When does the existence of an isomorphism imply the existence of a computable isomorphism?

Grants and funding

Summer Doctoral Dissertation Fellowship

\$2,000 USD

Summer 2024

Predoctoral Fellowship

\$7,805 USD

Spring 2024

Outreach

President of the Association of Women in Mathematics

University of Connecticut

Storrs, CT

2022-2024

Speaker at the Mathematics Continued Conference

University of Connecticut

Storrs, CT

Fall 2022

The Mathematics Continued Conference seeks to give undergraduate students interested in math an opportunity to learn about graduate school and current research done by graduate students and faculty.

Course Tutor for SSS Math Program

University of Connecticut

Storrs, CT

Summer 2020

Student Support Services (SSS) is a federally funded program at UConn which serves incoming students who are first-generation to college and/or come from communities underserved in higher education.

Languages

English

Advanced proficiency in reading, writing, and speaking

Second language learned,

learned in 2003

Tagalog

Intermediate proficiency in reading, writing, and speaking

Native language
